Results-oriented Information Technology student with experience in **Full Stack Development** and **Machine Learning**. Skilled in building scalable web applications, and solving complex technical problems. Passionate about creating impactful products, learning emerging technologies, and contributing effectively in collaborative team environments.

WORK EXPERIENCE

IT Daksh Solutions, Nagpur (Hybrid)

Web Developer

Jan 2026 – Present

- Engineered a MERN-based School ERP platform supporting **5+** core module, including student management, attendance tracking, academic records, faculty administration, and real-time chat functionality.
- Improved system efficiency by **30%** through responsive UI design, optimized React state management, and seamless user interactions.

TPDC Cell, SVPCET, Nagpur (Offline)

Full Stack & ML Developer

Nov 2025 – Apr 2026

- Developed a MERN-based Quiz Platform supporting **100+** students with JWT authentication, real-time scoring, and leaderboard tracking.
- Reduced quiz evaluation time from several minutes to under **5 seconds** through automated result generation and dynamic quiz management.
- Implemented automated quiz evaluation, reducing manual grading effort by 90%.

Pantech Solutions, Chennai (Remote)

Machine Learning Intern

Aug 2025 – Sep 2025

- Built a machine learning model achieving **96%** prediction accuracy on Sleep Quality classification using health-related datasets.
- Deployed the final model, achieving **92%** accuracy on the held-out test dataset.

PROJECTS

Intellix – Quiz Web Application — Live

- Built a full-stack quiz platform using React.js, Node.js, Express.js, and MongoDB with JWT-based authentication.
- Added real-time scoring, quiz management, and leaderboard tracking for concurrent users.
- Refined backend API performance to support faster response handling and application scalability.

SchoolERP – Offline School Management System — GitHub

- Designed an offline-ERP system using PostgreSQL, Prisma, TypeScript, and Node.js for school administration.
- Enabled attendance tracking, student record management, and local IP-based deployment for offline accessibility.

Sleep.AI – Sleep Quality Predictor — Live

- Integrated a machine learning-based Sleep Quality prediction platform using health-related datasets.
- Added Razorpay payment gateway integration, Cash On Delivery support, and order tracking functionalities.

NexHire – Resume Parser — Github

- Built an AI-powered resume parser using **Groq LLM** to extract structured information from **PDF** and **DOCX** resume.
- Implemented **Pydantic** models to validate and organize candidate data into a consistent **JSON** format.

EDUCATION

B.Tech (Information Technology)

Cumulative GPA – **9.3/10**

St.Vincent Pallotti College of Engineering and Technology Nagpur

2023 – 2027

TECHNICAL & SOFT SKILLS

Technical Language : C, C++, Java, Python

Frontend : HTML, CSS, JavaScript, TypeScript, React.js

Backend : Node.js, Express.js, REST APIs, Prisma ORM

Database : MySQL, MongoDB, PostgreSQL

Machine Learning : ML algorithms, OpenCV, Ollama, NumPy, Pandas, Matplotlib, Scikit-learn,

Tools : Render, GitHub, Netlify, Vercel, Render, TeamViewer, Docker Deployment, Hugging Face, Streamlit, N8N

Soft Skills : Effective Communication, Intellectual Curiosity, Resilience, Adaptability

CERTIFICATIONS

- Artificial Intelligence Workshop – Techfest, IIT Bombay (2025)
- Full Stack Development– Pantech Solutions (2025)
- Data Analytics with Python – IIT Roorkee, NPTEL (2026)
- React Basics Certification – HackerRank (2025)

ACHIEVEMENTS

- 1st Place – **Technex** TechQuest 2025, SVPCET.
- Winner – **WebVenture** Full Stack Development Competition
- Winner – Break the Query **DSA** Competition
- Solved 180+ coding problems on [LeetCode](#) covering Data Structures and Algorithms.
